Life in Stone

At Caesarstone, we pride ourselves on designing and manufacturing the very best premium worktop surfaces. Each expertly crafted Caesarstone slab meets the highest technical standards and promises a lifetime of elegance for your home.

Within our carefully curated range you are sure to find a Caesarstone surface to match your project. Timeless designs evoke the opulence of white marble, the drama of granite or delicacy of tumbled pebbles, each bringing the natural world into the heart of your home.

Veining and patterns go from the elegantly understated through to rich, bold and striking stones. Texture and natural patina are found throughout our collections. Whichever style you choose, you can do so in confidence when you invest in the Caesarstone brand.

Our surfaces are created with the needs of busy kitchens and bathrooms in mind. They are stain, scratch and heat resistant - ensuring your worktop will look beautiful for years to come.

Equally important, our surfaces require minimal daily upkeep, and in most instances will wipe clean with a cloth and mild detergent, meaning that the heart of the home can stay clean, hygienic and beautiful at all times.

Supernatural & Ultranatural

Collections

5151 Empira White

The Supernatural & Ultranatural Collections mark an aesthetic milestone for contemporary surfaces, combining the spirit of nature with the high performance of Caesarstone quartz.

The collection mirrors the complexity, emotion and uniqueness of natural stone while delivering superior quality and durability.

Taking inspiration from diverse geographies, cultures, architecture and interior trends, Caesarstone's design team capture the timelessness of marble, granite and travertine and interpret them for modern luxury lifestyles.

Metropolitan

Collection

4044 Airy Concrete

Caesarstone leads the industrial trend with the award winning Metropolitan Collection. Rough and unpolished, this bold look forms part of the revival of modernism, a rethinking of brutalism and the rekindling of industrial architecture.

Robust construction finishes have become a popular choice amongst consumers, inspired by factories and lofts and translated for residential and commercial interiors. Each energetically styled surface in the collection has been designed to reflect the authentic textures of raw manufacturing, such as oxidized steel, poured plaster and raw concrete. Via innovative cutting-edge technology exclusive to Caesarstone, weathered patinas have been achieved in quartz for the very first time - a breakthrough that can be felt as well as seen.

Metropolitan

Collection

Caesarstone has taken on the new raw trend of industrial design and pushed it further with the innovative Metropolitan Collection.

Classico

Collection

4011 Cloudburst Concrete

The Caesarstone Classico Collection is a suite of essential surface designs, covering a diverse range of colours, patterns, and textures. This collection of more than 30 designs is the most accessible way into Caesarstone's premium surfaces.

Timeless classics nestle within the collection, with bold terrazzo styles available in polished finish as well as the more contemporary honed surface of Misty Carrera. Ever popular mono colours are there in Jet Black, Snow and Concrete, while swirling natural veins and earthy patterns are evident in products like Misty Carrara and Organic White.

The most recent innovation within the Classico Collection is the Pebble series; five surfaces in a range of tones inspired by the humble pebble.

Classico

The Pebbles Collection

Our pebble-inspired colours nurture comfort and calm so essential to our times, bringing the blessings of sunlight and rain to the heart of your home.

Outdoor

Collection

515 Palm Shade

405 Middy

406 Clearskies

Patios and gardens are increasingly becoming spaces in which we live, work, play and entertain - and we want to do so all year round.

Caesarstone's outdoor surfaces provide the answer to every homeowner's desire to cook, dine and entertain from the comfort of their own garden.

In conjunction with this, they have been rigorously tested to ensure they will stand the test of time against harsh sunlight, and like all our surfaces, they are nonporous, durable, scratch, stain, mould and mildew resistant, and easy-to-clean.

The collection itself comprises three designs; 515 Palm Shade, the classic look of white marble with a subtle warm veining; 405 Middy, a white concrete look to complement tiling, stone or decking; and 406 Clearskies, a pale grey concrete design perfect for contemporary gardens.

However you imagine your dream outdoor space, Caesarstone's Outdoor Collection will bring your vision to life.

Surface Finishes

Caesarstone has expanded its line of finish options to include the rich layered looks of Concrete, Natural and Rough along with our sleek, standard Polished finish.

These matte, textured surface designs are of the same high-quality quartz as the Polished finish, yet present the option of a sensorial dimension with low sheen to satisfy different design styles.

POLISHED

Effortlessly elegant, this high gloss polish brings out the best in the colour by emphasising its features in high definition. Reflecting the shine of the times, it attracts light and illuminates spaces, naturally making them look larger.

HONED

Our Honed Finish is a low gloss satin, combining the modesty of matte with the sophistication of very subtle shine and a texture that is silky and soft to the touch.

NATURAL

This slightly textured finish conjures up the emotional caress of stone, adding warmth to the grain and a uniquely sensorial touch. Its satin sheen gently reflects light, enhancing depth of colour, especially on darker shades.

CONCRETE

This sleek matte finish is inspired by the tactile nature of smooth concrete. Its granular aspects stimulate the fingers, creating the sensation of a lively organic material.

ROUGH CONCRETE

This unique and highly advanced finish offers a truly rugged and tactile experience: a surface that is distinctively rough, yet smooth enough for easy cleaning. Light plays across the dramatic surface texture bringing out the depth of colour.

Care & Maintenance

5810 Black Tempal

Cleaning

Everyday Cleaning

- Just use water and a mild detergent, a spray-and-wipe type cleaner on a soft cloth or non-abrasive scourer. Then rinse with water and dry with a soft cloth or paper towel.
- Wipe up wet spills to prevent limescale forming.
- Check each cleaning product first on an inconspicuous area to ensure that it doesn't damage the surface.

Stubborn Stains

- Depending on the nature of the stain, gently rub the area with an appropriate cleaner and a soft cloth or paper towel.
- Clean a larger area than the stain itself using circular motions.
- Rinse with water and dry with a soft cloth or paper towel.
- Repeat the process if you still see the stain.

Dried Spills

- Carefully scrape away dried material such as food, gum or nail polish with a plastic putty knife and then clean the surface with a damp cloth.

Metal Marks

- Metal objects such as knives, metal pots, keys and belt buckles can sometimes leave metal residue on the surface. This is as easy to remove as described in 'Stubborn Stains', or by rubbing gently with a latex eraser.

Limescale

- Pour white vinegar on the limescale and leave it to soak for 30 minutes. Rub gently with a non-scratch scourer using wide strokes, then rinse with plenty of water. If necessary, repeat until the limescale is removed.

Rust Marks

- Place a small amount of Bar Keepers Friend® Cleanser (powder) on a damp cloth. Do not use an abrasive scourer. Wipe very gently in a circular motion. Rinse thoroughly with warm water and dry with a soft cloth or paper towel.
- Follow these instructions carefully to avoid damaging the surface.

Surface care

Surface Finishes

Caesarstone finishes other than Polished may need a little more daily maintenance due to their unique patterns and finishes.

Scratch Resistance

Caesarstone surfaces are scratch resistant. However, avoid using sharp objects such as knives or screwdrivers directly on the surface always use a cutting board.

Heat Resistance

Sudden and extreme heat, as well as prolonged or direct heat, can damage all stone surfaces, including Caesarstone, especially close to edges. Therefore, always place hot cookware or cooking units such as electric frying pans, crock pots or toaster ovens on trivets, and not directly on the Caesarstone surface.

Dark Surfaces

- Dark surfaces, objects and furniture are characteristically more prone to showing fingerprints and other signs of daily living than light surfaces. As such, dark Caesarstone colours may need a little more daily maintenance.
- Dark Caesarstone colours, as all dark surfaces, tend to be more sensitive to scratch marks. It is therefore important to protect the surface from sharp objects by using a cutting board.
- Limescale may be more visible on dark colours than light models so liquid should not be left to dry out on the surface.
- Use of cream-textured cleaning products is not recommended on dark surfaces.

Protection

- Do not let your Caesarstone surface come into contact with strong acids or alkalis, oxidisers or similar materials, regardless of pH.
- Do not use harsh cleaning products such as: oven/grill cleaners, dishwasher polishing agents, lye, caustic soda, acetone, paint strippers or any products containing trichloroethane or methylene chloride
- Do not use plant-based cleaning agents as they may cause a chemical build up.
- If the surface comes into contact with any products that might damage it, rinse immediately with plenty of water.
- Use of cream-textured cleaning products is recommended mainly for stubborn stains and not for routine cleaning.
- After cleaning, thoroughly rinse of any cleaning materials with water.
- Do not allow dirt or liquids to remain on the surface for a long time.
- If you intend to use a new cleaning product, check first on an inconspicuous area that it doesn't damage the surface.
- Do not use abrasive scourers as they can damage the finish/sheen of your Caesarstone surface.

Sustainability

Caesarstone is committed to developing environmentally friendly and sustainable products through continued innovation of our products and greener production processes.

We are focused on creating a value chain that is built on environmental, health and safety practices, as well as a greener and safer future for all of our employees, customers, partners and communities.

We do this through four main pillars

Social responsibility

Caesarstone is committed to creating a positive impact across the value chain for its employees, suppliers, customers, and the communities in which it works.

Caesarstone has pledged to support the communities in which its team work and live. This includes involvement with initiatives that improve educational, health and social issues for the communities who live near its facilities.

All employees are encouraged to enrich themselves within their local communities, and via social and community investment Caesarstone is improving the wellbeing of the people both in and around its facilities.

Sustainable products

Caesarstone is developing environmentally friendly products with superior quality, strength and durability, thus adding to the longlasting nature of its surfaces.

Health and safety

The brand's goal is to achieve a world-class health and safety system and just as Caesarstone ensures the safety and quality of its products in homes, offices and commercial developments, the company is taking measures to protect its fabrication partners who form a key part of the supply chain.

One of these is our Master of Stone program, which aims to raise professional and health & safety standards in the fabrication industry.

Environmentally responsible production

Caesarstone is committed to conducting its business in compliance with all applicable environmental laws, regulations and permits in a manner that has the highest regard for sustaining the environment in which it operates.

Caesarstone have committed to reducing its carbon footprint, styrene emissions, water use and wastage, as well as increasing the use of renewable energy

More details can be found on our full ESG report at:
www.global.caesarstone.com/about-us/corporate-responsibility

"At Caesarstone, we are privileged to be part of everyday life in millions of homes worldwide; that is why we are committed to sustainability through continued innovation of our products and greener production processes, while remaining focused on a value chain built on environmental, health and safety practices. Our aim is to inspire a journey of partnership, creativity and to celebrate Life in Stone."
